

Mahmoud Magdy Mansour

Flutter Developer

mahmodmansour2001@gmail.com | 01090617609 | Cairo, Egypt | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFILE

Flutter Developer with 2+ years of hands-on experience building cross-platform mobile applications across healthcare, e-commerce, real estate, and e-learning domains. Proficient in Clean Architecture, BLoC/Cubit state management, and RESTful API integration. Passionate about performance optimization, scalable codebases, and delivering high-quality user experiences.

PROFESSIONAL EXPERIENCE

4th Pyramids

05/2025 – Present | Mansoura, Egypt

Flutter Developer

Real Estate App – Propix8

- Implemented property discovery with advanced filtering and detailed unit views, improving browsing experience.
- Built a visit booking and maintenance request system with structured form validation and state management via BLoC.
- Handled offline/online state using connectivity monitoring to ensure graceful degradation during network interruptions.

E-Commerce App – Bynona

- Developed core shopping features including product listing, search, category filtering, cart, wishlist, and order management.
- Integrated RESTful APIs for products, orders, and inventory with proper error handling using Either-based failure mapping.
- Implemented real-time stock sync to prevent users from purchasing out-of-stock items.

Delivery App – Wassaly

- Architected the app following strict 3-layer Clean Architecture separating Presentation, Domain, and Data layers.
- Implemented BLoC/Cubit state management using SafeBloc to prevent state emission after widget disposal.
- Integrated FCM push notifications, real-time order tracking, and offline-aware API handling.

Aliens Software

2022 – 2023 | Mansoura, Egypt

Flutter Developer

E-Learning App (Full Platform)

- Built a complete e-learning platform with JWT authentication and role-based access for Students and Instructors.
- Implemented course browsing, video playback, interactive quizzes, and progress tracking across modules.
- Designed a modular feature structure to support easy extension of learning workflows.

Smart Scanner App (Barcode & Document Scanner)

- Developed a multi-purpose scanner supporting documents, QR codes, and barcodes using camera integration.
- Implemented automatic document edge detection, image enhancement pipeline, and PDF export functionality.
- Added local scan history with folder-based organization and cloud backup for data persistence.

PROJECTS

Chat Application (Flutter & Firebase)

- Real-time messaging app with authentication, online/offline status, and media sharing via Cloud Firestore.

Book Store & Reader App (Flutter & RESTFUL API)

- Browse books by category, purchase premium content, and read directly within the app using a built-in PDF reader.

Colon Cancer Detection App(Flutter & Machine Learning API)

- Mobile app for early colon cancer detection by analyzing patient data through a trained ML backend model.

TECHNICAL SKILLS

Languages & Frameworks (Flutter, Dart)

Architecture (Clean Architecture (3-Layer), BLoC / Cubit)

Backend & APIs (RESTful APIs, Firebase (Auth, Firestore, FCM))

Local Storage (Hive, SharedPreferences)

Maps & Location (Google Maps SDK)

Notifications (FCM, Local Notifications)

Dev Tools (Windsurf, Cursor, Git, Flutter DevTools)

EDUCATION

Kafr El-Sheikh University

01/2019 – 06/2023

Bachelor of Computers & Information – Major: Bioinformatics

Military Service | 01/2024 – 03/2025

Completed mandatory national military service.

LANGUAGES

Arabic – Native

English – Intermediate
